

“How MCP Works”

Main Menu

Step 1: Self Analysis
Making decisions about your future?
These tools will help you get started.

- My Interests**
- My Values**
- My Skills**
- My Personality**

MCP assesses your interest, values, skills & personality and identifies occupations as career options. You explore occupations that match your assessment results. Explore salaries, job outlook, work conditions, and identify schools offering majors with your career goals. Save the occupations you would consider as potential goals in your portfolio.

Explore any career by category or title.

Narrow down your career choices by combining your self assessment results.

Step 2: Other Tools To Aid You With Career Exploration:
Explore Any Career
Combine the Occupation Lists from My Self Analysis

Review results and saved occupations including your personal comments.

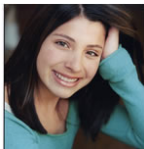

Step 3: Review My Results
My Self Analysis
My Saved Occupations

Search for Colleges
Tips and advice for the College Bound
My Saved Schools

Search for colleges based on: Majors, costs, location, size, athletics & activities, enrollment details. Learn about admissions requirements, financial aid, student life & athletic divisions. View visual tours and links to websites. Save & rank favorite schools.

Valuable college selection advice and essay writing tips.

Jane Smith's Personal Portfolio
Personalize My Portfolio
Review & Print My Portfolio

Create a Personal Portfolio with your career and education goals, accomplishments, personal & academic achievements. Upload your own photo.

Review your final reports, saved occupations & schools. Include this portfolio in your college application.
